Contents

Volume 57, 2010

Issue 1, February 2010

Concise RLT Forms of Binary Programs: A Computational Study of the Quadratic Knapsack Problem
Richard J. Forrester, Warren P. Adams, and Paul T. Hadavas 1
Published online 17 July 2009

A Sequential Auction-Bargaining Procurement Model
Woonghee Tim Huh and Kun Soo Park 13
Published online 12 November 2009

Neighborhood Search Heuristics for Selecting Hierarchically Well-Formulated Subsets in Polynomial Regression
Michael J. Brusco and Douglas Steinley 33
Published online 12 November 2009

A Hybrid Method for Simulation Factor Screening
Hua Shen, Hong Wan, and Susan M. Sanchez 45
Published online 28 October 2009

A Facility Reliability Problem: Formulation, Properties, and Algorithm
Michael Lim, Mark S. Daskin, Achal Bassamboo, and Sunil Chopra 58
Published online 12 November 2009

Newsvendor Bounds and Heuristics for Serial Supply Chains with Regular and Expedited Shipping
Sean X. Zhou and Xiuli Chao 71
Published online 19 November 2009

The Effects of Customer Rebates and Retailer Incentives on a Manufacturer's Profits and Sales
Ozgun Caliskan Demirag, Ozgul Baysar, Pinar Keskinocak, and Julie L. Swann 88
Published online 16 December 2009

Issue 2, March 2010

Base-Stock Policies in Capacitated Assembly Systems: Convexity Properties
Woonghee Tim Huh and Ganesh Janakiraman 109
Published online 18 December 2009

A Note on "Resource Flexibility with Responsive Pricing"
Ebru K. Bish, Juqi Liu, and Douglas R. Bish 119
Published online 12 January 2010

Optimal Operating Policies in a Commodity Trading Market with the Manufacturer's Presence
Hui Zhao and Arnab Bisi 127
Published online 16 December 2009

A Bivariate Optimal Replacement Policy for a Cold Standby Repairable System with Repair Priority
Kit Nam Francis Leung, Yuan Lin Zhang, and Kin Keung Lai 149
Published online 22 December 2009

Scheduling with Variable Time Slot Costs
Guohua Wan and Xiangtong Qi 159
Published online 12 January 2010

Multi-Item Capacitated Lot-Sizing Problems with Setup Times and Pricing Decisions
Mehmet Önal and H. Edwin Romeijn 172
Published online 16 December 2009

The Value of Losing Control: Competition in Markets for Complements
Hubert Pun and H. Sebastian Heese 188
Published online 6 January 2010

Issue 3, April 2010

Strategic Capacity Decision-Making in a Stochastic Manufacturing Environment Using Real-Time Approximate Dynamic Programming
Nikolaos E. Pratikakis, Matthew J. Realff, and Jay H. Lee 211
Published online 12 January 2010

An Approximate Dynamic Programing Approach to the Development of Heuristics for the Scheduling of Impatient Jobs in a Clearing System
Dong Li and Kevin D. Glazebrook 225
Published online 12 January 2010

Optimal Job Splitting on a Multi-Slot Machine with Applications in the Printing Industry
Ali Ekici, Özlem Ergun, Pınar Keskinocak, and Michail G. Lagoudakis 237
Published online 6 January 2010

Optimal Control of a Production-Inventory System with both Backorders and Lost Sales
Saif Benjaafar, Mohsen ElHafsi, and Tingliang Huang 252
Published online 12 January 2010

Equitable Bandwidth Allocation in Content Distribution Networks
Hanan Luss 266
Published online 18 January 2010

Stability of Information-Sharing Alliances in a Three-Level Supply Chain
Greys Sošić 279
Published online 15 February 2010

Asymptotic Properties of Imperfect Repair Models and Estimation of Repair Efficiency
Laurent Doyen 296
Published online 23 February 2010

Issue 4, June 2010

Dynamic Coordination of Production Planning and Sales Admission Control in the Presence of a Spot Market
Youyi Feng and Zhan Pang 309
Published online 16 March 2010

A Partial Characterization of the Optimal Ordering/Rationing Policy for a Periodic Review System with Two Demand Classes and Backordering
Shaoxiang Chen, Jianjun Xu, and Youyi Feng 330
Published online 11 March 2010

The Transshipment Fund Mechanism: Coordinating the Decentralized Multilocation Transshipment Problem
Eran Hanany, Michal Tzur, and Alon Levran 342
Published online 1 March 2010

Modeling and Analysis of Multiobjective Lot Splitting for N-Product M-Machine Flowshop Lines
Yossi Bukchin, Michael Masin, and Rinat Kirshner 354
Published online 16 March 2010

A Stochastic Gradual Cover Location Problem
Tammy Drezner, Zvi Drezner, and Zvi Goldstein 367
Published online 22 March 2010

Properties of a Mean Residual Life Function Arising from Renewal Theory
N. Unnikrishnan Nair and P.G. Sankaran 373
Published online 24 March 2010

Estimating Component Characteristics from System Failure-Time Data
Debasis Bhattacharya and Francisco J. Samaniego 380
Published online 24 March 2010

Issue 5, August 2010

An Integer Decomposition Algorithm for Solving a Two-Stage Facility Location Problem with Second-Stage Activation Costs
John Penuel, J. Cole Smith, and Yang Yuan 391
Published online 9 April 2010

Fully Sequential Procedures for Comparing Constrained Systems via Simulation
Sigrún Andradóttir and Seong-Hee Kim 403
Published online 9 April 2010

Path Optimization for the Resource-Constrained Searcher
Hiroyuki Sato and Johannes O. Royset 422
Published online 9 April 2010

Competing with Channel Partners: Supply Chain Conflict When Retailers Introduce Store Brands
Hans Sebastian Heese 441
Published online 9 April 2010

The Effects of Model Parameter Deviations on the Variance of a Linearly Filtered Time Series
Daniel W. Apley and Hyun Cheol Lee 460
Published online 13 April 2010

Equivalent Accelerated Life Testing Plans for Log-Location-Scale Distributions
Haitao Liao and Elsayed A. Elsayed 472
Published online 11 June 2010

Issue 6, September 2010

Rolling-Horizon Replenishment: Policies and Performance Analysis
Zhaotong Lian, Liming Liu, and Stuart X. Zhu 489
Published online 20 July 2010

Threshold Incentives over Multiple Periods and the Sales Hockey Stick Phenomenon
Milind G. Sohoni, Achal Bassamboo, Sunil Chopra, Usha Mohan, and Nuri Sendil 503
Published online 23 June 2010

A Nested Benders Decomposition Approach for Telecommunication Network Planning
Joe Naoum-Sawaya and Samir Elhedhli 519
Published online 20 July 2010

Inventory Sharing Under Decentralized Preventive Transshipments
Ying Rong, Lawrence V. Snyder, and Yang Sun 540
Published online 20 July 2010

Robustness of Efficient Server Assignment Policies to Service Time Distributions in Finite-Buffered Lines
Eser Kırkızlar, Sigrún Andradóttir, and Hayriye Ayhan 563
Published online 23 July 2010

Adaptive Random Search for Continuous Simulation Optimization
Sigrún Andradóttir and Andrei A. Prudius 583
Published online 23 July 2010

Technical Note: Some Structural Results on Acyclic Supply Chains
Junmin Shi and Yao Zhao 605
Published online 20 July 2010

Issue 7, October 2010

Nonperiodic Preventive Maintenance for Repairable Systems
Zu-Liang Lin and Yeu-Shiang Huang 615
Published online 27 August 2010

Some Elementary Ideas Concerning the Complexity of System Structure
Shuang Li and James Lynch 626
Published online 27 August 2010

An Extensible Modeling Framework for Dynamic Reassignment and Rerouting in Cooperative Airborne Operations
Chase C. Murray and Mark H. Karwan 634
Published online 27 August 2010

The One-Warehouse Multiretailer Problem with an Order-Up-To Level Inventory Policy
Oğuz Solyalı, Haldun Süral, and Meltem Denizel 653
Published online 27 August 2010

Analytic Solution for the Nucleolus of a Three-Player Cooperative Game
Mingming Leng and Mahmut Parlar 667
Published online 31 August 2010

Issue 8, December 2010

Supply Chain Coordination with Shelf-Space and Retail Price Dependent Demand and Heterogeneous Retailers
Xiaoning Luo, Yanmin Jiang, and Qiying Hu 673
Published online 28 October 2010

Potential Impact of Recharging Plug-in Hybrid Electric Vehicles on Locational Marginal Prices
Lizhi Wang, Anhua Lin, and Yihsu Chen 686
Published online 28 October 2010

Route Optimization for Multiple Searchers
Johannes O. Royset and Hiroyuki Sato 701
Published online 28 October 2010

Decomposing Inventory Routing Problems with Approximate Value Functions
Alejandro Toriello, George Nemhauser, and Martin Savelsbergh 718
Published online 28 October 2010

Approximation Results for Min-Max Path Cover Problems in Vehicle Routing
Zhou Xu, Liang Xu, and Chung-Lun Li 728
Published online 28 October 2010

Appreciation to Referees 749
